

Mohammed Mustaq

I'm a Full Stack Java Developer with around 4 year's of experience. I have hands-on experience in designing, developing and maintaining projects.

EXPERIENCE

CitiusTech, Bangalore — Senior Software Engineer

May 2022 - Present

- Designed and coded the REST APIs.
- Collaborated with engineers and product managers to deliver an exceptional user experience.
- Worked on UI Design and API Integration.
- Analyzed systems flow, data usage, and work processes to identify and troubleshoot issues.
- Performed Unit testing using Junit & Mockito and end to end testing using cypress.

Capgemini, Bangalore — Senior Analyst

Decemembr 2018 - August 2021

- Understood and analyzed the requirements.
- Carrying out root cause analysis of the bugs and fixing the bugs.
- Planned, tracked, and managed deliverables on many short-term sprints.
- Involved in the Migration Project. Performed Migration on a few modules and services.

EDUCATION

Masai School, Bangalore — Full Stack Web Development

November 2021 - April 2022

N.B.K.R Institue of Science & Technology, Nellore — Bachelor of technology

October 2013 - April 2017

PROJECTS

Expense Tracker App —

I worked on creating REST API's and writing business logic for expense tracker applications to perform crud operations using JWT Authentication.

Tech Stack: Java | Spring Boot | Angular | MySQL

- Implemented login functionality using JWT Authentication.
- Implemented Rest API's using Spring Boot.
- Designed Frontend part using Angular material.
- Users are able to track and manage the expenses.
